SimActive Expands its Partner Network for Medium Format Camera Solutions

Montreal, Canada, February 12th, 2019 – SimActive Inc., a world-leading developer of photogrammetry software, announces the expansion of its network of resellers for medium format licenses. The new strategic alliances allow to address the growing market need for processing imagery from medium format sensors. Partners include firms such as LiDARUSA, who offers SimActive's Correlator3D™ to complement Phase One cameras.

"SimActive provides an exceptional software for quickly processing large datasets at high accuracies", said Jeff Fagerman, CEO of LiDARUSA. "Their product is a great fit for our clients with metric cameras, including direct georeferencing capabilities."

"Medium format sensors mounted on aircrafts are becoming very popular as they offer great advantages over drone platforms, without the significant investments required by large format cameras", said Dr Philippe Simard, President of SimActive. "Partnering with highly skilled professionals such as LiDARUSA allows us to better serve that market segment."

About LiDARUSA
LiDARUSA, also known as Fagerman Technologies, is a family owned business just outside of Huntsville, AL. LiDARUSA specializes in laser scanning, photogrammetry, instrumentation and all things geomatics. Years of experience working on best-in-class products have developed our sense of quality and leadership necessary to build only the best systems. For more information, visit www.lidarusa.com.

About SimActive
SimActive is the developer of Correlator3D™ software, a patented end-to-end photogrammetry solution for the generation of high-quality geospatial data from satellite and aerial imagery, including UAVs. Correlator3D™ performs aerial triangulation (AT) and produces dense digital surface models (DSM), digital terrain models (DTM), point clouds, orthomosaics, 3D models and vectorized 3D features. Powered by GPU technology and multi-core CPUs, Correlator3D™ ensures matchless processing speed to support rapid production of large datasets. SimActive has been selling Correlator3D™ to leading mapping firms and government organizations around the world, offering cutting-edge photogrammetry software backed by exceptional customer support.
